Providing Quality and Individualized Jewish Education to the Girls of Queens

Wellness Policy on Physical Activity and Nutrition

Effective Date September 1, 2022

Understanding that children need access to healthful food and opportunities to be physically active in order to grow, learn, and thrive; our school is dedicated to providing an environment that promotes and protects student's health, well-being, and ability to learn by supporting healthy eating, nutrition education, and physical activity.

In understanding this mission by setting forth and implementing a school wellness policy for our school, we hope to help prevent childhood obesity. Obesity rates have doubled in children and tripled in adolescents over the last two decades.

Heart disease, cancer, stroke, and diabetes, are responsible for two-thirds of deaths in the United States, and since major risk factors for those diseases, including unhealthy eating habits, physical inactivity, and obesity are often established in childhood, our school would like to promote nutrition education.

Nutrition Goals

To achieve these goals our school will make sure that meals served through the National School Lunch and Breakfast Programs will:

- Be appealing and attractive to children
- Be served in clean and pleasant settings
- Meet, at minimum, nutrition requirements established by local, state, and federal regulations
- Offer a variety of fruits and vegetables
- Offer low-fat and/or fat-free milk
- Encourage use of whole grain
- Assure that students are given adequate time for eating and served in a pleasant atmosphere

Our school will encourage staff development and training of pertinent food service staff, teachers, and parents in child nutrition in order to effectively deliver quality nutrition education to the students.

To ensure that the school models good nutrition choices, healthy foods will be highlighted at school functions, celebrations, and class parties.

The school will involve the Parents Association in regard to setting forth a policy of children bringing healthy snacks to school.

The school will encourage teachers not to use foods or beverages, especially those that do not meet nutrition standards as rewards for academic performance or good behavior. Non-food alternatives such as toys, stars, and little trinkets could be used.

Vending machines (if applicable) will not carry carbonated drinks such as soda and will not carry non-nutritious high empty calorie snack foods. Vending machines will not be in operation during breakfast and lunch service.

Nutrition information will be taught formally in classrooms and informally in the lunchroom to order to educate students and assist their development of making healthy food choices for meals and snacks.

Snacks served during the day or in the after-school care or enrichment programs will make a positive contribution to student's diet and health.

The school will continue to be a smoke free environment. Fresh drinking water will be available to all students and staff.

Physical Fitness Goals

Recognizing that physical fitness is an integral component to a child's well-being, the school shall adopt and implement a health and fitness curriculum. This curriculum will provide opportunities for developmentally appropriate instruction for all grades.

The school will provide daily recess periods for elementary school students featuring time for unstructured but supervised active play for at least 20 minutes daily.

High school students will have daily recess available and encouraged to engage in moderate to vigorous physical activity preferably outdoors.

Teachers will not use physical activity or withhold opportunities (e.g., running laps) for physical activity (e.g., recess) as punishment.

Students that live in close proximity to school will be encouraged to walk to school and home.

If operating an after school program, the program coordinator will include some form of physical activity on a regular basis.

Implementation and Monitoring

To help with the initial development of the school's wellness policy, each school building (if applicable) will conduct a baseline assessment of the school's existing nutrition and physical activity policies. The results will be compiled and used to identify and prioritize needs.

Assessments will be repeated every three years to review policy compliance, assess progress and determine areas in need of improvement. If needed, the wellness policy will be updated, and fine-tuned to facilitate better implementation.

The principal/administrator will oversee policy compliance for physical education and activity.

The School Food Service administrator will oversee the nutritional component of the policy for compliance.

Parents will continue to be encouraged to assist the children with healthy food choices at home and encouraged to make sure their child partakes in physical activity.

Non-Discrimination Statement

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this institution is prohibited from discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication to obtain program information (e.g., Braille, large print, audiotape, American Sign Language), should contact the responsible state or local agency that administers the program or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: [https://www.usda.gov/sites/default/files/documents/USDA-OASCR P-Complaint-Form-0508-0002-508-11-28-17 Fax2Mail.pdf](https://www.usda.gov/sites/default/files/documents/USDA-OASCR-P-Complaint-Form-0508-0002-508-11-28-17-Fax2Mail.pdf)(link is external), from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. mail:

U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or

2. fax:(833) 256-1665 or (202) 690-7442; or

3. email:program.intake@usda.gov(link is external)
